

March 2025, Yerevan

Dear friends and supporters,

The founding of Aregnazan Waldorf School 30 years ago and its ongoing development has been possible thanks to the passion, dedication and generosity of our founders, parents, and friends. While nurturing the holistic development of generations of students, for years, we have been dreaming of owning a space that would meet the needs of our school.

Today, we are excited to share that our dream is about to become a reality. Years ago, due to the large influx of applicants, we decided to increase the number of students with the goal of eventually building a school building in Kasakh.

The land in Kasakh – donated to the school by parents for the construction of a new school building – once covered with grass and weeds, now houses an alley, a playground, a garden house, and two cottages serving as temporary classrooms, allowing us to ease the overcrowded space of the rented building of the school on Saryan Street.

Having long struggled with inadequate space, Aregnazan Waldorf School now has the opportunity to own a building with unique architecture, spacious grounds, sports facilities, and playgrounds. This will enable us to fully carry out our mission as a Waldorf school and restore vital connections between the soil, nature, animals, plants, and people.

With the new school building in Kasakh, the school building in Yerevan will provide sufficient space for twelve classrooms and will have access to land for gardening, construction, and other specialized classes.

And now, there is only one step separating us from our cherished dream: raising financial resources.

While we have already raised half of the required funds for our building project, we still need a significant amount to make this dream a reality.

Just as a vast ocean is formed by countless drops, even the smallest contribution from you can make a significant difference.

For this purpose, the international organization *Freunde der Erziehungskunst* ([www.freunde-waldorf.de](http://www.freunde-waldorf.de)) has opened a special account (**Projekt 4165 Neue Schulbau in Armenien**), allowing donors from Europe and the USA to make tax-deductible donations. In Armenia, a special account has also been opened, linked to the [Donate](#) page on our website.

The construction of the school building will take approximately three years, during which, you may make monthly donations. While this may have a small impact on your personal expenses, it will be a precious help to our school.

We sincerely thank you for any donation you can offer and for sharing this information with your friends and others who may be interested.

You can make your donations through the accounts provided on the next page.

## EUROPE
